White Pigeon Marine Service

About us...

White Pigeon Marine Services has been a prominent name in the domain of Ship Supply. Established On 2012, In Port Said As A Head Office, Now We Cover All Egyptian Ports,

We have a wide maritime service , ranging from provisions, bonded, deck, engine, safety, spare parts, industrial supplies, electrical equipment etc.

With our facilities in all Egyptian ports with the help of our partner network, We offer marine supplies in Egypt to all kinds of vessels arriveing to suez canal area and all Egyptian ports.

With our own warehouses, we guarantee to our customers a high quality products and we make sure that all the requirements of the vessels are catered in a timely manner.

With our fleet of reefer vehicles and specially built insulated delivery container ensures that the quality of goods is maintained at all points of the delivery process. With our advanced storage and inventory management systems which enable us to support prompt and uninterrupted ship supplies in all egyptian ports when required.

With our commitment to Quality, together with competitive pricing, expertise of our employees and a world-wide supplier and partner network we guarantee to our customers reliable service with fast response and rendering excellent maritime services for saving time and money to vessels owners.

With our team of experienced experts in all relevant areas is familiar with working customer-oriented clients and working with them continuously over long period of time. We make use of our flexibility and creativity in order to meet all the frequently changing demands of the market. The company is taking on an aspect of a world-class shipping and marine catering service provider today.

As a result of continuous marketing activities based on solid global network and valuable experience in catering and shipping services, we succeeded in making contracts with overseas and domestic clients. These results have strengthened our market leadership in spite of tough market conditions.

Safety of our employees and clients are a top priority

We have skilled assembly teams which can install prefabricated parts on site. We offer a 24-hour service. We offer a full range of repair possibilities in the broadest sense for:

- Main engines; Auxiliary engines; Pumps and other related equipment.
- Turbo blowers; Separators; Machining of crank shafts in situ.
- Design, manufacturing and installation of all kinds of stainless steel expansion joints (bellows).
- Overhaul of winches and additional hydraulic system.
- Generators, electrical and refrigerating equipment.
- Welding of complete range duplex materials.
- Replacement of anchors and anchor chains.
- Hatch cover repairs.
- Ship cranes repairs.

We believe in delivering the highest quality of workmanship on time and on budget.
